Subject: Water Right 34-00470A, Reno

Per today's telephone conversations with both Scott Johnson and Doug Rosenkrance (Watermaster), Reno's water, diverted into the Upper Fish Hatchery Canal from Warm Springs, is now being applied to the upper end of the appurtenant property. Beneficial use of the water is being made by flood irrigation of alfalfa. This confirmation should address concerns identified in my July 17, 1998 letter to Dr. Reno.
